

# Employment services for job keepers

## Your career doesn't end with vision loss - it evolves

If your vision is changing and you're concerned about keeping your job, you're not alone - and you don't have to face this journey alone. At Vision Australia, we're here to help you overcome challenges, adapt to change and continue thriving in your career.

### What we do

We provide tailored, holistic support to help you:

#### Adapt to your new circumstances

With practical strategies and tools.

#### Retain and grow

In your current role with confidence.

#### Navigate change

Whether that means modifying tasks, re-training or exploring new careers.

### With decades of experience, we offer:

- **Expertise in vision-specific employment services** that address your unique needs.
- **Access to cutting-edge assistive technology** to keep you productive and independent.
- **Personalised support** that integrates life skills, wellbeing and career development.

We can also connect you with programs like JobAccess and Work Assist to make your journey smoother.

## How we help you succeed

Our team is here to ensure you feel equipped, confident, and supported as you adapt to changes in your vision. Together, we'll empower you to take charge of your career and continue achieving your goals.

Here's how we support you:

### 1. Navigate your workplace with ease

- Develop safe travel strategies, including customised routes and mobility aids like white canes.
- Adapt your commute and workspace for comfort, safety and efficiency.

### 2. Equip yourself with assistive technology

- Learn to use the latest tools and devices, from screen readers to magnification software.
- Set up your workstation with accessible solutions to stay productive and independent.

### 3. Thrive in your workplace

- Build practical skills for communicating your needs to colleagues and supervisors.
- Partner with your employer to foster an inclusive and supportive environment.
- Provide disability awareness training to your team, promoting understanding and collaboration.

### 4. Explore new opportunities if needed

- If a career change is necessary, we'll support you with re-training, upskilling, and exploring new industries.
- Together, we'll align your career path with your evolving strengths, passions and goals.

## We're in this together

Your career goes beyond a job - it's your journey of growth and purpose. With the right tools and mindset, vision loss does not have to stand in your way.
